

Nick Pappas

Since 1996, the Pappas family has called St. Andrew home.

Nick founded World Internet Marketing Inc., featuring complete marketing services for businesses of all sizes. Also initiated by Nick, innovative flagship service Eworldwire is one of only a handful of news wire services in the U.S., disseminating press releases.

Under Nick's guidance, the church was awarded a Google AdWords Nonprofit Grant, providing access to up to \$120,000 per year in advertising.

Nick has also solely founded an offshore technology company in Chennai, India. In 2010, Nick was one of only 10 business leaders in the U.S. selected for a Chinese government-sponsored trade mission which involved meeting governors and mayors to discuss international trade. Nick was the small business and technology representative. He also is an advisor to several non-profit organizations.

Nick serves as a director for A Life for Brian Foundation, a 501(c)(3) (registration pending) non-profit dedicated to providing scholarships to those who are drug addicted to attend qualified rehabilitation clinics throughout the country.

Nick has held the position of adjunct professor for both credit and non-credit courses at Morris County College. He holds an associate's degree in Business Management from Orange County Community College, and a bachelor's degree in Business Administration, with a concentration in Economics, from Ramapo College of New Jersey.

Born in New York, Nick was baptized in the Cathedral of the Holy Trinity in New York and lived in the city with his family until moving to Vernon, N.J., at age 13.

With wife and choir member, Melanie, Nick has three children, Domonique (Nicki), Callidora (Calli) and Carissa, who share love of the community of St. Andrew and commitment to service, including in GOYA, and can be found offering their talents to support events and initiatives at our church and in the surrounding community.
