

Important Notice: Construction Work at St. Andrew

Dear Parishioners,

Over the next several weeks, we will be completing several important improvement projects at St. Andrew, including **sidewalk repairs, parking lot paving, replacement of the front entrance lighting, and painting of the church ceiling.**

During this time, portions of the church grounds, parking lot, and entrances may be temporarily restricted or redirected. **For everyone's safety, please pay close attention to all posted signs and follow the designated parking, traffic flow, and driving patterns while entering and exiting the church property.**

We appreciate your patience and cooperation as we complete these much-needed improvements to our parish facilities.

Thank you for helping us keep St. Andrew safe during construction.

St. Andrew Parish Council
